Seminar Announcement

Speaker: Ahmet Çevik

Philosophical analysis of the formalization of mathematics

Abstract

This talk will be about the philosophy of Hilbert's formalization program. I will discuss the reasons why such a program was set for mathematicians and philosophers to formalize mathematics. I will then analyze the outcome, in terms of decidability, that why the program failed to achieve its goal.

DATE: November 5, 2014
TIME: 15:30
PLACE: FEF 404 (Seminar Room)

All interested people are cordially invited.
After the seminar, some cookies and soft drinks will be served.
